

Identify a swimmer's ability at a glance!

Enhance swim safety with SwimID. Our unique product can be described as an accessory to better classify swimmers of all skill levels. SwimID stands out from wristbands and anklets, because the SwimID necklace can be easily seen when swimmers are in the water.

Green means go!

The SwimID method uses the spotlight system. Swimmers wearing green SwimIDs have no restrictions.

Yellow means caution!

This group has more restrictions than green. Anyone wearing a yellow SwimID has some limitations in the water.

Red means beginner!

Red SwimIDs are for new swimmers. This group is typically restricted to the shallow end and needs extra supervision.

Custom colors available!

Showcase your brand with custom colors. Add a new color to your system today with our in-stock blue SwimIDs!
